SUMMARY

- **Passionate Full-Stack Developer** with strong foundation in MERN Stack and Flask, capable of delivering scalable, production-grade web applications.
- Demonstrated ability to thrive in high-pressure environments like hackathons, with a track record of innovative, end-to-end project execution.
- Eager to learn, adapt, and contribute in fast-paced, product-driven environments through a rigorous training-to-deployment cycle.

EDUCATION

Parul Institute of Technology

B.Tech in Computer Science and Engineering (CSE) – 8.58 CGPA

Sep 2022 – May 2026

Vadodara, Gujarat

COURSEWORK / SKILLS

Languages

Python, Javascript

Frameworks & Stacks

MERN Stack

Tools

Postman

Databases

MongoDB, PostgreSQL, MySQL

Other Skills

Machine Learning, REST APIs, Git

PROJECTS

EduConnect Platform [↗](https://edu-connect-sigma.vercel.app) | MERN STACK (https://edu-connect-sigma.vercel.app) **06/2024 – 07/2024**

- Developed and deployed an educational platform with role-based access control for students and educators.
- Implemented optimized interface and search features to enhance usability and engagement.

EatzHub – Hostel Meal Feedback System | MERN Stack

2025

- Developed a feedback and rating-based web application enabling hostel students to submit meal-wise reviews (breakfast, lunch, dinner) for daily food quality.
- Designed an admin dashboard to analyze ratings and feedback, helping authorities take data-driven actions to improve meal quality and manage kitchen staff performance.

MindVault – Quiz Platform [↗](https://mind-vault-iota.vercel.app/) | MERN Stack(https://mind-vault-iota.vercel.app/)

06/2025

- Designed and developed a competitive quiz platform enabling users to participate in technical quizzes (Aptitude, DSA, DBMS) and win real cash prizes.
- Implemented secure registration with email verification, login, and mobile number integration for prize distribution.

EXPERIENCE

Full Stack Intern – o2h Technology

Jan 2026 – Present

Intern

Gujarat, India

- Developing and maintaining backend APIs using Node.js and TypeScript in a production-level application.
- Worked on frontend features using React Native.
- Contributed to a monorepo-based architecture and collaborated with cross-functional teams to deliver scalable solutions.

EXTRACURRICULAR

Hackathons and Coding Competitions

Ongoing

- * Actively participated in numerous hackathons, demonstrating innovative problem-solving skills and teamwork under time constraints.

CERTIFICATIONS

- **AWS Certified Cloud Practitioner – AWS**

Achievements

- **The Bharat Scouts Guides - Rajya Puraskar Certificate:** Awarded for excellence in scouting, demonstrating leadership, discipline, and community service.
